

KARİM MAMMADOV

DATA ANALYST / DATA SCIENTIST

ABOUT ME

A data scientist who leverages advanced analytical and statistical techniques to uncover actionable insights from complex datasets. Skilled in building predictive models and applying machine learning to solve real-world problems. A specialist actively involved in driving data-driven decisions that optimize business outcomes and innovation.

CONTACTS

HARD SKILLS

- **Data Visualization - Advanced**

(Tableau, Power BI, Matplotlib, Seaborn)

- **Statistical Analysis - Advanced**

(Descriptive statistics, hypothesis testing, correlation & regression analysis, probability distributions)

- **SQL - Advanced**

(Queries, JOINS, subqueries, data manipulation, optimization)

- **Python - Intermediate**

(Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn)

- **Machine Learning - Advanced**

(Supervised & unsupervised models, evaluation, and hyperparameter tuning)

- **Data Wrangling & Cleaning – Advanced**

(Preprocessing, missing values, outliers, data quality)

SOFT SKILLS

- Problem-solving
- Adaptability
- Attention to Detail
- Critical Thinking
- Communication Skills

LANGUAGES

- Azerbaijan (Native)
- Turkish (Native)
- English (Intermediate)
- Russian (Elementary)

WORK EXPERIENCE

DATA SCIENCE INTERN

Saiket Systems

2025 Sept - Present

Remote – Intern (AI/ML Contributor)

- Executed end-to-end Data Science workflows for customer churn analysis, including data preprocessing, feature engineering, exploratory data analysis (EDA), and segmentation, transforming raw datasets into actionable business insights.
- Developed and optimized NLP and LLM-based solutions, including prompt engineering and Retrieval-Augmented Generation (RAG) pipelines, applied to predictive modeling and customer behavior analysis for enhanced decision-making.

AI ENGINEER INTERN

Elevo Pathways

2025 Sept - Present

Remote - Intern (AI/ML Contributor)

- Designed and implemented ML solutions for real-world business problems, focusing on supervised learning, time series forecasting, and NLP (RAG, LLMs).
- Contributed to end-to-end model development: data preprocessing, feature engineering, training, evaluation, and optimization using PyTorch, TensorFlow, and scikit-learn.

BACK-END DEVELOPER INTERN

Azerbaijan HR Institute

2024 April - 2024 August

- Developed and maintained full-stack applications using C#, Python, Node.js, and React, ensuring scalability and performance.
- Collaborated with cross-functional teams to design and optimize APIs, enabling efficient front-end and back-end integration.

EDUCATION

Div Academy

Data Science

2025 March - Present

Eskisehir Osmangazi University

Master's Degree in Finance

2022 - 2024

Azerbaijan University of Architecture and Construction

Bachelor's Degree in Melioration and Communication Systems

2018 - 2022

TRAININGS AND CERTIFICATES

TAB Academy

Data Analytics

EDDE Global Agency

“Study in the UK&USA” conference

Organized by The Innovation and Digital Development Agency in

Collaboration with The AZERBAIJAN HR Institute

Full-Stack Developer PHP (Laravel)
